

- SBA and HUB Certified Company
- Registered with NIH
- Better Business Bureau Rating: A+
- Spin off from: World Wide Technologies, Inc (WWTI) founded in 1987

Our integration solutions are derived from years of cross-industry experience and technology expertise. Highly scalable and based on new platforms like the cloud and virtual servers, they can be readily adapted for future requirements.

Because our veteran consulting team uses best practices as well as frameworks and methodologies, we can meet all software integration requirements, including application integration, EDI/B2B, Business Activity Monitoring, Business Process Management and SOA.

Innovating through process and technologies

History: Abasys Technologies Inc (“ATI”) is a spin off from World Wide Technologies, Inc (“WWTI”), which was founded in 1987 in Richardson, Texas with a focus on developing emerging technologies in IT, Telecommunication and Healthcare industries. WWTI was also considered as Forefather of Pre-Internet Era in telecommunication industry. WWTI's first product was 1200 bps Hayes compatible internal modem with several unique features, later upgraded to 9600 bps. WWTI was reorganized and targeted supplying computer hardware and software to both government and private sectors as an authorized Dealer of HP, Dell and IBM. Federal contracts included Bureau of Engraving and Printing, IRS and other 7 sub-agencies, Department of Treasury, Defense, NASA, NATO, Pentagon, Department of Justice, State Department, and USPS. WWTI was awarded million of dollars contracts from several state agencies, cities and counties in Texas, notable among them are - City of Addison, City of Arlington, Carrollton, Irving, Plano, Tarrant and Dallas Counties. WWTI was awarded multiple contracts for supplying SIMMs, Computers, and software.

ATI Company Summary

ATI is a privately held, minority owned, HUB Certified Company in the State of Texas. Better Business Bureau has given A+ rating for ATI's length in business, customer service and overall business operations. ATI strives to maintain our rating by exceeding customer expectation every day. ATI helps clients cut down on their overhead expenses by as much 40%-50%, and reduce their management overheads by effectively eliminating – legacy applications, complex architectures and outdated approaches to staffing. ATI takes pride in building strategic, long-term client relationships. ATI also has strategic partnership alliances with other technology companies, notable among them are – Microsoft Corporation, IBM, Samsung, Sphere3D and XMPPro Inc.

Custom Software Development and System Integration

ATI has designed, developed, and maintained hundreds of custom software applications. ATI's development team is led by veterans from top performing Fortune 500 IT companies, who play a great role in providing reliable solutions. The ATI team is exceptional at leveraging open source software. ATI is highly competitive because of our ability to use open source, and effectively calibrated development processes. Additionally, our team includes certified engineers with an extensive hands-on work experience with .NET and Java Technologies.

ATI's software application development expertise includes:

- **Microsoft Technologies:** .NET, SharePoint, Dynamics, and Azure.
- **Java/J2EE:** JSP, EJB, and Spring Framework.
- **Open Sources:** LAMP Stack (PHP/MySQL), Drupal, and Wordpress.
- **Database Systems:** MS SQL, MySQL, Oracle, PeopleSoft.
- **Mobile Application Development:** iOS and Android.

IT Staffing and RPO Model

At ATI, we take years of technology experience and put it to work for you at competitive pricing. We conduct the primarily technical interview ourselves before presenting resume to our clients. Through this system, we provide the most dynamic and well matched candidates possible. Before we accept our first assignment, we make a significant upfront investment on the most elaborate talent search tools in the market. We take our time in qualifying, screening, and finding the best candidates in the market.

Our Value Adds:

- ✓ Faster turnaround time.
- ✓ Achieve tremendous cost savings.
- ✓ Enable you to focus on your core activities.
- ✓ Scalability.

We appreciate the Hiring Manager's and our Client's busy schedules. We simplify the hiring process by utilizing our Technical Recruiting Solution. You can free your existing talents and enable them to focus on more critical tasks which will dramatically reduce your hiring expenses and resource allocation.

ATI creates scalable, innovative, and tailored RPO solutions. We deliver governance, compliance, innovation, technology and reporting. Our end-to-end approach integrates our collective recruitment experience and a client-dedicated team.

Local Execution

Person to Person Connections

- Local contacts for hiring and HR managers
- Local knowledge management
- Local change management

Our RPO Delivery Model

- We assign specialist recruiters with strong technical expertise in the area of requirement.
- We service contract, contract to hire and permanent positions.
- We have access to leading job boards and also have our own database.
- We have maintained and nurtured a strong vendor network.
- We take responsibility of sourcing, fit gap analysis, candidate screening, reference checks

Testimonies

"The ATI team has been amazing! We engaged with them on a shopping app project last year to arm a 40+ sales team with a sales tool for their clients. From concept to launch the project was successful, and we quickly enlisted them as our local outsourced technical team for projects ranging from web development to Salesforce report modification."

Neil Lemons, Director of Digital Strategy
Q Clothier | RYE 51, Dallas, TX

"Thank you so much to you and the team at ATI for quickly working with our Web Coordinator and helping to get our Summer Camp Directory on CSHCN.org back up and running. We appreciate the quick response and quality follow-up you provided in a cost effective way."

Jacque Stock Seattle
Children's Hospital
www.SeattleChildrens.org

"Thanks so much for your excellent work! The ATI team was very responsive to my specific requests for the look and development of the site and had an excellent turnaround time on each task. I would recommend their services to others for sure."

Dr. Kimberly Allison
University of Washington, WA
