Case Study - Custom Billing

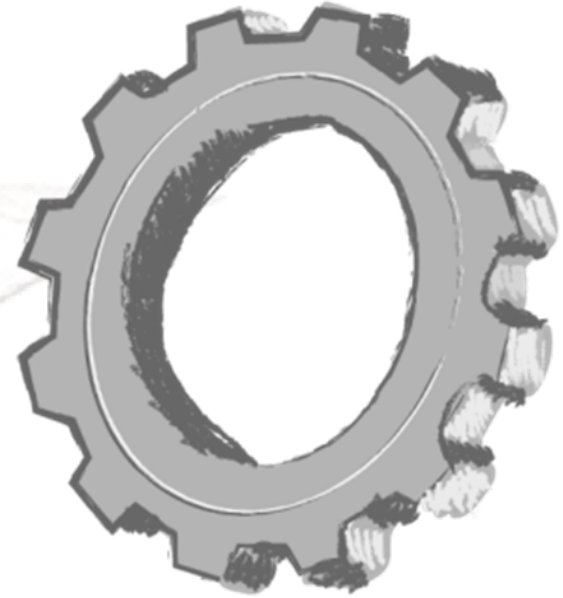

BluBilling Manages Entire Process:

- Account specific pricing
 - Vendor price management and control
- Thousands of jobs distributed to Mr. Electric franchisees
 - Labor reduction
- Job tracking and invoicing for franchisees
 - Billing against contracted prices
- Audit and invoice aggregation
 - National Accounts get 1 invoice/ PO/ month, not thousands
- Treasury and Disbursements
 - Franchisees get paid by ACH
 - Franchisor withholds fees
- Reporting and accountability

Software Development

Agile Software Development for a Competitive Market

- Enterprise Applications, SharePoint and CRM
- System Integration and Automation
- Microsoft, Java/J2EE and Open Sources
- Cloud Ecosystem Integrator for infrastructure, platform, and applications

“I have been impressed with their commitment to do what it takes to finish a project and the personal attention they give me when I need it. Their experience shows when strategic solutions are needed on the projects. I highly recommend ATI if you are looking for a programming/IT team to manage your company's tech development.”
